The Administrator will not select an application unless the project will receive supplemental funds in an amount at least equal to 20 percent of the RUS zero-interest loan and grant to be provided to the project, as determined by the Administrator. Supplemental funds as used in this section may come from the project owner in the form of equity funds, private sources, state and local government sources, other Federal Government sources, the borrower or other sources. Only supplemental funds that will be provided to the project after the date RUS receives the borrower's completed application may be used to satisfy this requirement. This determination will be made by the Administrator for each fiscal year.
- (b) Regardless of the projected total amount that will be available, the maximum size may not be lower than \$200,000.
- (c) The projected total amount available during a particular fiscal year is calculated as the sum of the projected amount that will be credited to the subaccount during a particular fiscal year from the interest differential calculation based on the RUS borrowers' cushion of credit levels at the time the Administrator makes the determination and any amounts appropriated for that fiscal year for zero-interest loans or grants made under section 313 of the Act.
- (d) After the Administrator has determined the maximum size for a fiscal year, a notice of the calculation and amount will be published promptly in the FEDERAL REGISTER. Thereafter, the maximum size will remain in effect until the Administrator has published the maximum size for the next fiscal year.

§ 1703.29 Terms of zero-interest loan repayment.

- (a) The Administrator will determine the terms and repayment schedule of the zero-interest loan to the borrower based on the nature of the project and approved purposes. Ordinarily, the total term of the zero-interest loan, including any principal deferment period, will not exceed 10 years. - (b) The Administrator has the discretion to defer the repayment of principal up to two years, based on an analysis of the feasibility of the project. Ordinarily, if the Administrator considers the project to be a business expansion or going concern, the first repayment of principal will not begin until one year after the date of the RUS note. Ordinarily, if the Administrator considers the project to be a start-up project, the first repayment of principal will not begin until 2 years after the date of the RUS note. Loans must be repaid under terms set forth in RUS's legal documents.
- (c) Unless the Administrator has specifically approved otherwise, the borrower will be required to repay the RUS zero-interest loan in full at such time as a pass-through-loan has been fully repaid to the borrower. If the borrower uses the proceeds of the RUS zero-interest loan to provide pass-through-loans to more than one entity, this requirement will only apply to that portion of the zero-interest loan
